HOW THEY SECURE REPUBLICAN VOTES AT miles from Richmond, near the Powhatan Iron-Works, are making strenuous efforts to secure a hand-ome Republican vote at the coming election. There are about three hundred hands employed there, one hundred and seventy-five of whom are white men, and the rest negroes. Besides this number about three hundred convicts are hired to work at the quarry. Major Haupt in charge of the work. Until recently there was but a small force at the quarry, owing to the fact that the funds designed to carry on had been exhausted, When Congress passed the appropriation bill, however, hey commenced hiring hands again, and work was resumed. We have been informed several times lately that before biring, the white employes especially, the applicants mechanic, who has had many years' exworks and quarry, stated to the writer that | peck; who he meant to vote for in the coming election, and offered to administer an oath lately with other persons.

GOVERNOR HENDRICKS'S FIRST CAMPAIGN * SPEECH.

SHELBYVILLE, IND., September 2 .- Hon. Thomas A. Hendricks spoke here to-night. He said he had yielded to his friends and will make this and a few other addresses to the people. He said that in a recent speech Governor Morton said: "In such a campaign, with slander as the chief weapon, the Republicans must be excused if they speak lainly of the political character, history, and urnose of their antagonists."

Mr. Hendricks continued: "At the close of that speech there remained no question that the campaign, so far as Morton could give it character, was correctly described as one of slander. No man of intelligent observation has failed to see that misrepresentation of the motives of the Democrats is the purpose and policy of the press and speakers of the Republican party. They charge conduct, attribute motives, and impute sentiments and opinions wholly unknown to the parties attacked. Language is attributed was never used, or vhich misquoted and garbled as to impart a meaning never intended. A cause must indeed be desperate when its vindication requires a resort to means so despicable and wicked. I but repeat my letter of acceptance when I say that all the people must be made to feel and to know that once more there is established a purpose and policy in which all citizens, of every condition, race, and color, will be secure in the enjoyment of whatever rights the Constitution and laws declare or recognize, and that he is a dangerous enemy of his better in many respects. It will be of the new Sultan. The Turkish and forcountry who would arouse or foster sectional antagonism. In but two southern between the races. In these States surely relieve the industries of the country alone-Louisiana and South Carolina-is of a portion of their burdens, and the adopthe Republican party dominant. In every other State of the South the people have recovered and restored the American right and power of self-government, and the negro race has ceased to be the tool of party, and peace and harmony prevail, and prosperity is rapidly returning to all." Governor Hendricks spoke of the restora-

tion of harmony in Arkansas and Mississippi after the overthrow of the Republican administration therein. He said: "The same story tells the history revive and confidence be restored, and we of North Carolina, and Texas, and Alabama. Why not restore Louisiana and South Carolina to the blessings of good government, that blacks and whites and together may dwell under the mild influence of peace and harmony as wise men who make political gain out of scenes of

violence and bloodshed. "There is not one good man in our whole country whose heart is not made gladder by the assurance that once more the Methodist Episcopal Church is to become one and undivided. The Christian and patriotic gentlemen whose labors have brought that result about merit the gratitude of the country, as they will receive the blessing of God. That mighty Church will no longer be divided, in America by geographical lines, nor disturbed by sectional pasbut, united as the body sions, will press forward in Christ, work of man's elevation everywhere. In the address a week since it is declared these fraternized Churches have no further occasion for sectional disputes or accrimonious differences. As the love of the whole for all the parts has animated the Churches, and raised them nearer the throne, so the same spirit will strengthen our Union of States, and will raise our country into higher regions of patriotism, and upon brighter fields of glory."

Mr. Hendricks next touched on the question of reform. He said corruption was found everywhere unchecked by the men retained in power, and he argued that the remedy therefor was a change of administration. He said: "Whose fault is it that Office. there has been no reform, but on the contrary that the public service has been drifting from bad to worse? It is not fair to charge it altogether upon General Grant. That charge springs from an unworthy motive on the part of a class of Republicans who seek Governor Hayes's election upon the ground that he can accomplish reforms which General Grant could not or would not bring about. Upon this subject Governor Morton expressed the following opinion in his late speech: 'The administration of any President will be inthe main what the party which elected him make it. If he breaks away from his party the chances are that he will be broken down. In a government of parties like ours the President must have his choice of officers. The men to whom he MAIL ROBBERY-A LEADING REPUBLICAN AND owes his election, who have defended him from assaults, to whom he must look for support in the future, will ordinarily control his action, and he will do nothing offensive to them.' In a large degree that expresses the truth of General Grant's administration. It is what his party has made it, and his party is what its leaders have made it. Four years ago, in my opening address as a candidate for Governor, I expressed my personal respect for General Grant in the opinion that the people had less to apprehend an evil policy cause from him than from the malign powerful influence with which he would be surrounded. You all know that the results have more than realized my predictions. Civil-service reform is now sneered, and has ceased to be a pretence; wasteful expenditures have continued, and official mis- various bureaus to-day. conduct has become widespread and alarming. Surely the President cannot be relieved of responsibility for so shameful a condition experience when he pledged himself and his administration to Reform. Even he was not strong enough to achieve success in the St. Louis, September 2.—The northern-midst of the adverse influences which party and party leaders brought about him."

of the last session of ngress, saying the Democratic House reduced apprepriations \$40,000,000. The Senate resisted some of the reductions, and in order not to impair the Government service, the House was compelled to yield somewhat—the result being \$80,000,000 reduction. He asked, Will you stand by the House or sustain

the Senate and Administration?" Mr. Hendricks said it was clear that the leaders of the party will not allow their party friends to be punished. The pledges of reform were distinctly made at St. Louis, but not in the Cincinnati plank. On the contrary, the Cincinnati platform declares the national Administration merits commendation for its honorable work in the management of domestic and foreign affairs. Mr. Hendricks here elaborated on the reform work done by the Democratic House, and claimed that Belknap's crime would never have been brought to ight but for its investigations.

Mr. Hendricks said: "Have you been

They are chosen by the people in pursuance of the Constitution. Would you have it Surely you will not say that they have offended you in voting to reduce the national expenditures \$30,000,voting to 000? Dealing fairly with this subject, will you not admit that it was liberal, it was honorable, on their part to support the Centennial Exposition rather than suffer the honor of the country to be tarnished, and our pride humiliated by a failure, after the Congress of 1871 had committed the country to the enterprise? Was it not liberal and honorable on their part to vote for the equalization of bounties among the solders of the Federal army? Their own constituents could not share therein, and yet they supported the measure. The House has been denounced and declared revolutionary because reform measures were put upon the appropriation bills.

He next spoke of Governor Tilden's reform record. Neither political nor personal friendship can stand in the way of his efforts to purify and to cheapen the public service.
